

Installing ultrasonic devices is simple and fast with mounting brackets from Milltronics.

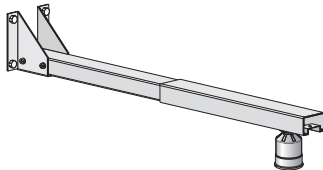

**FMS-200
Universal Box Bracket**

Allows any unit with a threaded 1 or 2 inch connection to be mounted 20 to 31 cm (8 to 12") out from a wall or beam. The unique box design also acts as a sun shield for the transducer.

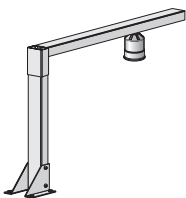

**FMS-210
Channel Bracket, Wall Mount**

Allows any transducer with a threaded 1 inch connection to be mounted 12 to 48 cm (5 to 19") out from a wall or beam.

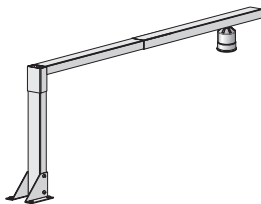

**FMS-220
Extended Channel Bracket**

Allows any transducer with a threaded 1 inch connection to be mounted 32 to 98 cm (13 to 39") out from a wall or beam.

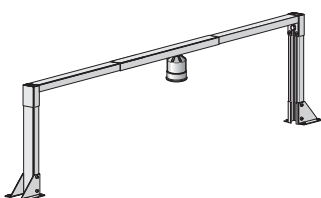

**FMS-310
Channel Bracket, Floor Mount**

Allows any transducer with a threaded 1 inch connection to be mounted from 20 to 48 cm (19") high and from 5 to 57 cm (2 to 22") out past the mounting.

**FMS-320
Extended Channel Bracket, Floor Mount**

Allows any transducer with a threaded 1 inch connection to be mounted from 20 to 48 cm (19") high, and from 41 to 108 cm (16 to 43") out past the mounting.

**FMS-350
Bridge Channel Bracket, Floor Mount**

Allows any transducer with a threaded 1 inch connection to be mounted from 20 to 48 cm (19") high, anywhere along a 166 cm (65") beam. This bracket is well suited for large OCM applications by providing a very stable mount for the transducer above a flume or weir.

- *These rugged, high quality mounting brackets are constructed of stainless steel and suitable for use indoors and outdoors*
- *They adjust to fit almost any application, saving you the time and expense of building custom brackets*
- *Each kit includes sensor mounting hardware*
