

FBCV-OR Series

Sanitary Control Valves- OR Version

The FBCV O-Ring Series is designed to meet the rigid specifications for sanitary process control valves for customers who prefer an O-ring style stem seal. This valve series is suitable for a wide variety of applications in the cosmetic, dairy and food and beverage industries.

Conforming to 3A guidelines, the FBCV is ideally suited for a wide range of flowing media in both the utility and process areas of sanitary systems.

High rangeability, characterized trim, high capacities, superior temperature and pressure ratings along with a selection of sealing methods make the FBCV the sanitary control valve for liquid, gas and steam services.

Whether the need is to control pressure, temperature, flow, pH, or another variable, the FBCV is the right valve for your process.

FEATURES

- FDA compliance standard on all process seal and seat materials (except Buna-N)
- Self draining – Angle Body: when mounted in vertical (all sizes) or horizontal orientations
- Mechanically polished internal components – 32Ra finish – standard
- Maintenance-friendly – easy to perform sanitary maintenance with simple disassembly and reassembly
- Steel, baked corrosion resistant coated multi-spring actuators to meet a wide range of differential pressure requirements while providing excellent corrosion resistance during washdown

AVAILABLE FINISHES

Body

- *Standard:* 32 Ra mechanical finish on internal wetted surfaces; as cast external

Stem

- *Standard:* 32 Ra mechanical finish

APPLICATIONS

A wide variety of applications exist for the FBCV in the health care and food & beverage and other industries including:

Processes

- Fermenter
- SIP/CIP Systems
- Extrusion

Media

- Caustic
- Acids
- Buffer
- Clean Steam

SPECIFICATIONS – O-RING STEM SEAL

Sizes: 1" (DN25) through 3" (DN85)

Body/Bonnet Connection: sanitary clamp

Body/Bonnet Seal

- FDA EPDM
- FDA Viton
- FDA Silicon, Kalrez, Fluoraz
- Buna-N

Body Material: ASTM A351 CF3M 316L

Stem Material: ASTM A479 316L SST Barstock

Bonnet Material: ASTM A479 316L SST Barstock

Stem Seal

- FDA EPDM – to 120°F (+48°C)
- FDA Silicon – to +300°F (+148°C)*
- FDA Viton® – to +300°F (+148°C)*
- FDA Buna-N – to +225°F (+107°C)
- FDA Kalrez® – to +450°F (+232°C)
(Not 3A Approved)
- FDA Fluoraz® – to +450°F (+232°C)
(Not 3A Approved)

*While rated to exceed normal Clean Steam operating temperatures, Steriflow Food and Beverage does not recommend the use of non-encapsulated Viton, or Silicon for continuous clean steam service. Contact the factory if questions.

Stem Bushing: FDA TFE (no process contact)

Actuators

Pneumatic

- 1" (DN25); 35M & 55M: Steel, baked corrosion resistant coating
- 1-1/2" – 2" (DN40 – DN50); 55M & 85M: Steel, baked corrosion resistant coating; 3" (DN85); 85M: Steel

Soft Seat Option (Cv ≥ 3.5 only) (Not 3A Approved)

- PTFE FDA to 252°F (122°C)
continuous or 275°F (135°C) in intermittent (less than 15 min over 1 hour)
- PEEK FDA to 350°F (177°C)

Electric

- 1" – 3" (DN25 – DN85)
MV1010 Cv 0.2 – 5.0 (Kv 0,17 – 4,3)
MV1020 All other Cv's

Shutoff

- Standard: ANSI Class III with metal seat
- Optional: ANSI Class VI with soft seat (Cv > 3.5 only)

Ranges: 3-15, 6-30, 3-9*, or 9-15* psi (0,2-1,0; 0,4-2,0; 0,2-0,6; or 0,6-1,0 bar) (* positioner required)

Maximum Pressure @ 100°F (38°C): 450 (31 bar) High pressure versions available, contact factory for details

Flow Characteristics: Linear, equal percentage, or quick opening (consult factory for quick opening Cv's)

Pressure/Temperature Rating

- O-Ring: 450 psi up to +450°F (31 bar up to +232°C), temperature dependent upon stem seal and body/bonnet seal o-ring material

Cv (Kv) Ratings

Size	Cv (Kv) Ratings	
	Linear	Equal Percentage
1"	3.5 / 5.0 (3,01 / 4,30)	
	7.5 / 15.0 (6,45 / 12,90)	
1-1/2"	5.0 / 15 / 30 (4,3 / 12,9 / 25,0)	
2"	10 / 15 / 20 / 30 (8,6 / 12,9 / 17,20 / 25,80)	
	40 / 60 (34,40 / 51,60)	40 (34,40 / 60)
3"	70/100 (65/86)	60/80/90 (52,69,77)

MAXIMUM Δ Ratings, PSI (BAR)

Valve Size	Valve Cv	Actuator Size	ATO 3-15	ATO 6-30 or with positioner @ 40 psi	ATC 3-15 or with positioner @ 20 psi	ATC 6-30 @ 40 psi
1"	3.5 / 5.0	35M	150 (10,3)	216 (14,9)	150 (10,3)	450 (31)

3"	70/85/100	85M	63 (4,3)	111 (7,7)	63 (4,3)	232 (16,0)

Note: for pressure drop capabilities of electric actuators, please consult factory

Note: 1/2" – 4" with positioner ATO actuator is bench set @ 6-30 psi/ ATC actuator is bench set @ 3-15 psi

O-RING STEM SEAL (ANGLE STYLE (1"))

NEW Bi-direction flow capability. Valve can be installed with inlet on side or bottom. Self draining when valve is installed with inlet on side and valve in upright position as shown.

SPECIFICATION

Stainless steel sanitary control valve offers a cast ASTM A351, CF3M, 316L body with ASTM A479 316L barstock material, for all wetted metal parts. The valve stem shall be supported by a one piece, SS NAMUR Yoke with two extended PEEK™ Guide bushings to provide structural rigidity and true guiding in any installation orientation. Guiding of valve stem/plug shall be outside of the wetted process areas of valve above stem o-ring. Control valve shall have extended guide bushing to provide additional support for multiple installation orientations. Valve shall be self draining in at least one orientation.

O-RING STEM SEAL (1-1/2" – 3")

Stainless Steel sanitary control valve offers a cast ASTM A351, CF3M, 316L body with ASTM A479 barstock material for all wetted parts. Valve stem sealed by FDA approved material o-ring. Guiding of valve stem/plug shall be outside of the wetted process areas of the valve above the o-ring. The control valve shall be free of threads within the wetted process area. Valve shall have one piece SS Namur Yoke enabling Namur positioner bracketing and providing stem stabilization for Horizontal mounting. Valve is self draining in any orientation.

Valve Size	Dimensions				Weight Lbs
	A	B	C	D	
1"	1.95	11.80	1.70	9.50 (35M)	27 (35M)
				12.50 (55M)	42 (55M)

	A	B	C	D	
DN25	53	303	49	241 (35M)	12 (35M)
				318 (55M)	19 (55M)

Based on US tri-clamp ends. Consult factory for DIN and ISO tri-clamp end dimensions

- Valve is bi-directional, flow can enter either connection
- When valve is open, there is no hold up volume
- * For gravity drainage from inlet to outlet, install as shown above.

DIMENSIONS

INCHES

				381 (85M)	26 (55M)
DN50	78	381	84	318 (55M)	21 (35M)
				381 (85M)	26 (55M)

Based on US tri-clamp ends. Consult factory for DIN and ISO tri-clamp end dimensions

Installation and Drainability:

- Valve has no hold-up when installed as shown above, but must be drained below inlet.
- Valve will gravity drain from inlet to outlet when installed with inlet horizontal (outlet facing down)

NEW FBCV-OR CONTROL VALVE OPTION: MOUNTING BRACKET

We now have a Stainless Steel Bracket Kit for all of our 1" – 3" FBCV-OR angle style, and 1" Inline style Control Valves.

- The bracket (shown to the right) mounts to the base of the Namur Yoke and provides exceptional support for mounting to a 2" pipe stand (Hardware included), wall or panel.
- Specifications:**
 - Materials:**
 - Bracket, HHCS: 316SS
 - Ubolts, Nut (for mounting to pipe stand): 304SS
 - Washers: 18/8 SS
 - Surface Finish:**
 - 316SS Angle Standard Material Finish
- See the bottom of the FBCV-OR pricing pages in the Steriflow F&B Valve Price List for Kit FBCV-OR-BRKT-KIT Pricing.
