

**Milltronics MFA 4p motion failure alarm controller**
**Overview**

MFA 4p motion failure alarm controller is a highly sensitive single setpoint motion sensor system, used with Milltronics MSP probes.

**Benefits**

- Up to 100 mm (4 inch) gap between target and probe
- Switch selectable overspeed or underspeed detection
- Setpoint adjustment 0.15 to 3 000 PPM (pulses/minute)
- Adjustable start-up time delay
- Visual indication of probe operation and relay status
- General purpose, suitable for majority of industrial applications; rugged probe designs provide unmatched reliability

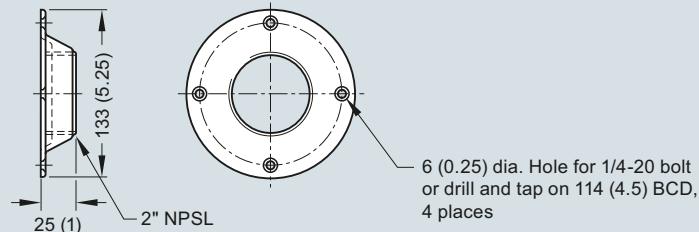

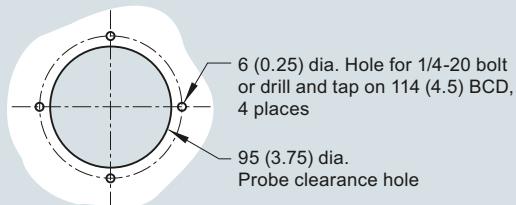

**Application**

The MFA 4p detects changes in the motion and speed of rotating, reciprocating or conveying equipment. It warns of equipment malfunction and signals through contacts to shut down machinery in case of a slowdown or failure. Its reliability makes it a cost-effective way to protect valuable process equipment.

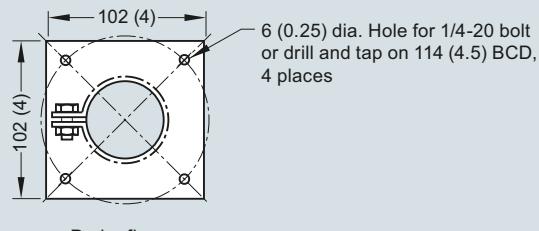

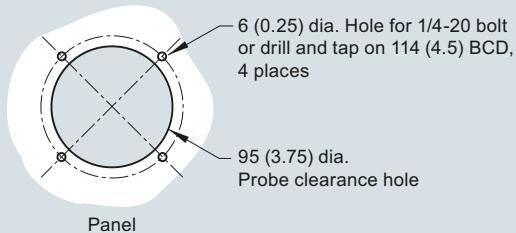

The single setpoint system suits most industrial applications. This versatile unit can be used on tail pulley shafts, driven pulleys, motor shaft sensing, belt or drag conveyors, screw conveyor flights, bucket elevators, fans and pumps.

A special feature is the adjustable 0 to 60 second time delay, allowing the monitored device to accelerate to normal running speed before monitoring begins. A wide range of probes are available to suit specific needs, including high temperatures and corrosive installations. The CE approval allows the MFA 4p to consistently meet the needs of the mining aggregate, cement and other primary and secondary industries.

- Key Applications: tail pulleys, motor shaft sensing, screw conveyor flights, bucket elevators

**Design**
**Mounting for Milltronics MSP-12, MSP-3, XPP-5**

Note: Mounting flange supplied with probe.

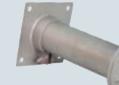

**Mounting for Milltronics MSP-9**

Milltronics MSP-12, MSP-3, MSP-9, XPP-5 mounting, dimensions in mm (inch)

#### Selection and Ordering data

##### Milltronics Motion Sensing Probes

A series of motion sensing probes used with the MFA 4p.  
 Milltronics MSP-3: heavy-duty, high temperature aluminum  
 Milltronics MSP-9: heavy-duty, high temperature stainless steel  
 Milltronics MSP-12: heavy-duty, general purpose  
 Milltronics XPP-5: hazardous rated  
 Note: Milltronics MSP-3 and MSP-9 probes require the use of Milltronics RMA (amplifier)
