

DeZURIK MG MANUAL GEAR ACTUATORS TECHNICAL SPECIFICATIONS

Design and Construction

DeZURIK Manual Gear Actuators are available in cast iron construction for use on BHP High-Performance Butterfly Valves, BOS-US Resilient Seated Butterfly Valves, RCV Rotary Control Valves, VPB V-Port Ball Valves and .5-3" Eccentric Plug Valves.

Manual gear cast iron actuators feature sintered bronze bearings on each end of the input shaft for durability and performance. The ductile iron gear provides strength for robust applications and a long service life without maintenance. Manual gear cast iron actuators are available with handwheel or chainwheel.

Externally Adjustable Stops

Open and closed position stop screws are externally adjustable, permitting easy and quick adjustment of gear limit stop positions for the valve.

Enclosed and Buried Service

The actuator is weatherproof as standard, and is sealed to prohibit entry of moisture and dirt. The operator is high-temperature grease filled.

Easily Visible Indicator

Manual gear actuators feature an external, easy-to-read indicator that clearly indicates valve position.

Safety Lockout

As an option, a convenient lockout may be ordered on handwheel actuators. The lockout allows the actuator to be padlocked in open, closed and various intermediate positions. The lockout may also be purchased separately for field conversion.

Standardized Mounting

The actuator features tapped mounting holes which allow simple, external mounting of the actuator to the valve. The ISO bolt pattern permits interchangeability with other DeZURIK actuators and valve styles.

Actuator Options

Manual gear actuators are available with a wide variety of options available on application.

Actuator Weights

Basic Actuator*

Actuator Size	Weight lbs/kg
MG-7	$\frac{8}{4}$
MG-1012	$\frac{10}{5}$
MG-1216	$\frac{25}{11}$
MG-16	$\frac{36}{16}$
MG-64	$\frac{56}{25}$
MG-1250	$\frac{49}{23}$

Handwheel Input*

Actuator Size	Weight lbs/kg
HD8	$\frac{8}{4}$
HD12	$\frac{11}{5}$
HD16	$\frac{18}{8}$
HD20	$\frac{22}{10}$
HD24	$\frac{26}{12}$
HD28	$\frac{31}{15}$
HD30	$\frac{33}{15}$

Chainwheel Input*

Actuator Size	Weight lbs/kg
CW8	$\frac{11}{5}$
CW12	$\frac{16}{7}$
CW20	$\frac{42}{19}$
CW24	$\frac{48}{22}$
CW30	$\frac{61}{28}$

Safety Lockout*

Actuator Size	Weight lbs/kg
MG-7	$\frac{1}{1}$
MG-1012	$\frac{1}{1}$
MG-1216	$\frac{1}{1}$
MG-16	$\frac{1}{1}$
MG-64	$\frac{4}{2}$

*Add Basic Actuator Weight to Input Weight for total.

**Add Lockout Weight to Actuator and Input Weight for total.

Mounting Positions

BHP High Performance Butterfly Valves BOS-US Resilient Seated Butterfly Valves

Handwheel and chainwheel actuators can be mounted at standard and 180° mounting positions.

VPB V-Port Ball Valves

On 1–16" (25–400mm) valves, handwheel and chainwheel actuators are available at standard, 90°, 180° and 270° mounting positions. On 18 & 20" (450 & 500mm) VPB valves, only standard and 180° positions are available.

RCV Rotary Control Valves

On 1–4" (25–100mm) valves, handwheel and chainwheel actuators are available at standard, 90°, 180° and 270° mounting positions.

On 6–12" (100–300mm) valves, handwheel and chainwheel actuators are available at standard and 180° mounting positions.

.5"-3" PEC Eccentric Plug Valves

Handwheel and chainwheel actuators can be mounted at standard 90°, 180° and 270° mounting positions.

Ordering

To order manual gear actuators, select the model from the appropriate sizing charts in Bulletin 72.00-2. As a reference, the actuator model codes are defined below.

Actuator Type Give the actuator type code as follows:	
MG	= Manual Gear Actuator

Actuator Size Give the actuator size code as follows:	
7	= Manual Gear Size 7
1012	= Manual Gear Size 1012
1216	= Manual Gear Size 1216
16	= Manual Gear Size 16
64	= Manual Gear Size 64
1250	= Manual Gear Size 1250

Input Type/Size Give the input type/size code as follows:	
HD8	= 8" Handwheel
HD12	= 12" Handwheel
HD16	= 16" Handwheel
HD20	= 20" Handwheel
HD24	= 24" Handwheel
HD28	= 28" Handwheel
HD30	= 30" Handwheel
CW8	= 8" Chainwheel
CW12	= 12" Chainwheel
CW20	= 20" Chainwheel
CW24	= 24" Chainwheel
CW30	= 30" Chainwheel

Actuator Mounting Specify actuator mounting positions other than standard (90°, 180°, 270°) as second line information. (See limitations under mounting positions)

Ordering Example:

PEC,3,F1,CI,NBR,CR*MG-7-HD8

Accessories

Manual Gear Safety Lockout

Shaft hubs allow the actuator to be padlocked in open, closed and in various intermediate positions. Available on handwheel units only. To order mounted, add LK after the actuator code.

Ordering Example:

PEC,3,F1,CI,NBR,CR*MG-7-HD8,LK

To order as a separate item, use the order code listed in the table.

Actuator Size	Order Code
MG-7, MG-1012	ACC*LK6
MG-1216, MG-16	ACC*LK7
MG-64	ACC*LK2

Ordering Example: ACC*LK6

Galvanized Chainwheel and Guide

Same as chainwheel actuator except chainwheel and guide are galvanized. To order, specify galvanized chainwheel and guide as second line information.

Ordering Example:

PEC,3,F1,CI,NBR,CR*MG-7-CW8

Except chainwheel and chain guide to be galvanized.

Memory/Open Position Stop

An adjustable memory stop for handwheel actuators allows return of the valve to a preset open position after shutoff. To order, add ST to the order code.

Ordering Example:

PEC,3,F1,CI,NBR,CR*MG-7-HD8-ST

Chain for Chainwheel Actuators

Order as a separate item by giving code from the table below and required length of chain.

Order Code	Description
ACC*CN102	Standard 3/16
ACC*CN103	Galvanized 3/16
ACC*CN106	304 Stainless Steel 3/16

Ordering Example:

ACC*CN102

Chain 10 feet (3048mm) long.

Flag Indicator

A highly visible flag indicator, to show disc position. To order as part of a valve/actuator assembly, add FI to the actuator code. If ordered separately, specify

ACC*FI followed by the actuator size code.

Ordering Example:

PEC,3,F1,CI,NBR,CR*MG-7-HD8,F1

Switches and Position Transmitters

DeZURIK position indicating switches can be ordered separately or combined with a position transmitter in one enclosure.
